INSTRUCTIONS

SERUM TG is designed to clean and brighten grout and ceramic tile. Simply spray **SERUM TG** over the area to be cleaned. Allow a few minutes dwell time and using a stiff bristle brush, agitate the grout areas you are attempting to clean. Rinse with clean clear water. Repeat in areas if required. This product is designed for the environment. **SERUM TG** does not leave behind any residual acids or caustics. It is based on **Hydrogen Peroxide** which degrades into water and oxygen, **NATURE'S GREENEST CLEANER**.

PRECAUTIONS:

Avoid contact with skin. Do not ingest. Keep out of the reach of children. When not in use keep container tightly closed. Store container in cool dry areas. Store at temperatures below 100° F. Do not dispose of unused portions into water ways, creeks, rivers, estuaries or oceans. Do not reuse empty container. Do not return unused material to original container. Use gloves when handling this product.

EMERGENCY RESPONSE:

EYES - rinse for 15 minutes with potable water, if symptoms persist, seek medical attention. **SKIN** - rinse thoroughly with water, if symptoms persist, seek medical attention. **INGESTION** - give victim large amounts of water while seeking immediate medical attention. **INHALATION** - remove victim to source of fresh air, if symptoms persist, seek medical attention

RE-ORDER PRODUCT PART # 5-671

Our **Serum System** was used on **Extreme Make Over - Home Edition** March 11, 2007 on a house in Lake Arrowhead, Ga.

The newly constructed house stood for over 14 months unfinished because of family tragedy.

The front foundation did not have a french drain to divert water. Water ran under the front footing and was trapped in the crawl space by the back foundation wall. There was no vents in the foundation to exhaust the moisture. Moisture intruded from the sides and top of the structure as well.

As a result of these conditions, the crawl space was really filthy and ultimately filthy throughout the interior of the house.

The house has two 2700 sq. ft. stories with bonus rooms in the cathedral ceiling and a 2700 sq. ft. crawl space. Total area for cleaning was about 42,400 sq. ft. of sprayable area and only 24 hours to accomplish the job! The job was finished in less than 21 hours with no return of unsightly stains or objectionable odors. Oh and the house was totally uncontained the entire time during cleaning and testing!!! The house had no windows or doors installed yet.
