

SERUM TW™

VEHICLE WASH WITH WAX

- NON FLAMMABLE
- CONTAINS NO SOLVENTS
- ECONOMICAL
- AGGRESSIVE CLEANER
- HIGHLY EFFECTIVE
- CONTAINS NO CAUSTIC
- RINSES FREE IN COLD WATER
- NON-SPOTTING
- ENHANCES GLOSS
- BIODEGRADABLE
- HIGHLY DILUTABLE
- REMOVES ROAD FILM

DESCRIPTION

SERUM TW is designed to be used through a high pressure washer either hot or cold. It is designed to remove the dreaded magnetic road film without brushing. **Serum TW** contains an acrylic polymer that places a microscopic coating on all surfaces of vehicles. **Serum TW** dries spot free and puts a shine on even the dullest paint surface. On glass, it causes water to bead and blow off very rapidly so that windshield remains clear and windshield wipers shouldn't be required.

DIRECTIONS FOR USE:

Spray **Serum TW** diluted 1 part **Serum TW** with up to 50 parts water onto the surface to be cleaned. Always apply the chemical solution from the bottom up to prevent clean streaking. Do not apply the chemical solution on areas beyond reaching left and right while standing in one place. High pressure wash while going from bottom to top. Be sure to overlap strokes while moving left and right moving up toward the top of the vehicle. Turn detergent off and high pressure rinse from the top down. Rinse thoroughly until all suds are gone. Rinsing should take at least as long as cleaning the vehicle.

CAUTIONS:

Keep out of the reach of children. Do not ingest. When not in use keep container tightly closed. Do not return unused portions to original container. Do not dispose of unused portions into water ways, creeks, rivers, estuaries or oceans. Do not reuse empty container. Rinse empty container thoroughly before discarding.

EMERGENCY RESPONSE:

EYES - rinse for 15 minutes with potable water, if symptoms persist, seek medical attention. **SKIN** - rinse thoroughly with water, if symptoms persist, seek medical attention. **INGESTION** - give victim large amounts of water while seeking immediate medical attention. **INHALATION** - remove victim to source of fresh air, if symptoms persist, seek medical attention

PRODUCT PART # 5-682

Our **Serum System** was used on **Extreme Make Over - Home Edition** March 11, 2007 on a house in Lake Arrowhead, Ga.

The newly constructed house stood for over 14 months unfinished because of family tragedy.

The front foundation did not have a french drain to divert water. Water ran under the front footing and was trapped in the crawl space by the back foundation wall. There was no vents in the foundation to exhaust the moisture. Moisture intruded from the sides and top of the structure as well.

As a result of these conditions, the crawl space was really filthy and ultimately filthy throughout the interior of the house.

The house has two 2700 sq. ft. stories with bonus rooms in the cathedral ceiling and a 2700 sq. ft. crawl space. Total area for cleaning was about 42,400 sq. ft. of sprayable area and only 24 hours to accomplish the job! The job was finished in less than 21 hours with no return of unsightly stains or objectionable odors. Oh and the house was totally uncontained the entire time during cleaning and testing!!! The house had no windows or doors installed yet.
